

Mink Lashes

HOW TO APPLY Ultimo 3D MINK LASHES

STEP 1

Prepare your look, curl your natural lashes and if you are applying mascara do so before applying your false lashes.

STEP 2

Once you're ready to apply your false lashes, carefully remove the lashes from the tray by dislodging the inner corner of the band, then pulling the rest of the lash off by the band. Never pull on the lashes themselves.

STEP 3

Hold the lash up to your eye to measure for sizing. If the lash is longer than your natural eye shape, trim the lash accordingly, always cutting it from the inner corner of the lash.

STEP 4

Place a thin layer of Ultimo Black glue on the band of the lash, allow it to dry for 30 seconds, then apply the lash by placing the band on top of your natural lash line.

STEP 5

Repeat steps for the other eye and you are glam and ready to go!

CARE

STEP 1

Your day is over, or your special event has come to an end, now it's time to properly remove your lashes so they can live to see another day of beauty.

STEP 2

When done wearing the lashes, gently remove them by lifting the band of the lash off of the skin at the inner corner of the eye, then using that bit of base to gently remove the remainder of the lash. Never pull on the lashes to remove, always use the band.

STEP 3

Repeat for the other eye.
